WORK EXPERIENCE

Gigshare| Ikeja, Lagos State | 2022-2023

FullStack Web Development Intern

- Implemented JavaScript code to add new features and interactions to websites.
- Developed and maintained RESTful APIs that enabled communication between the frontend and backend of the application.
- Optimized data fetching and data management by using Mongoose's features such as indexing, and aggregation, improving the performance of database queries and reducing the load on the database.

Calculate All| Lagos State | 2023-present

Backend Development NodeJs

- Developed an OCR API using Tesseract and pdfjs-dist to extract text from images and PDF files, making it easy for users to convert scanned documents and images into digital text.
- Implemented a scalable and efficient image querying and saving system using the Cloudinary Node.js SDK.
- Used MongoDB to develop a scalable and efficient database for storing and retrieving data.

Jumia | Surulere, Lagos State | 2023-2024

Accountant and Clerk, Hub Representative (Adeniran Ogunsanya Station)

- Managed accounts payable and accounts receivable, ensuring timely and accurate payments to vendors and customers.
- Processed and entered data into the company's CRM system, ensuring that customer information was accurate and up-to-date.
- Served as the Hub Representative for Adeniran Ogunsanya Station, taking on additional responsibilities such as coordinating operations and ensuring smooth functioning of the hub.

Perzsi LLC | Remote | 2024-present

FullStack Development PHP

- Implemented a new Dashboard for the company.
- Used SQL to develop new tables for the company to efficiently manage the dashboard data.
- Implementing payment platforms and system for seamless payments.
- Migrated backend for the company's side website from Nodejs to Laravel.
