CAREER OBJECTIVES

- To bring in energy, skill, and attitude into my job.
- To deliver expressly on company's expectations as an individual; accessing and utilizing the resources at my disposal more efficiently, and able to integrate properly in a team process of project execution.
- To understand the 'heartbeat' of the organization in which I work, as captured in its policies and structured objectives, and contribute my quota to the full realization of its topmost goal.
- To understand the details of my job description, while performing under little or no supervision.
- And also, to seek challenging roles that will exploit my intelligence, skills, expertise and experience to break barriers.
